

The Department of Computer Science at the University of Toronto  
presents a special lecture by

# Craig Mundie

Chief Research and Strategy Officer, Microsoft

## “Converging Worlds: A New Era in Computing”

We are starting to see a fundamental transformation in how we interact with computers and what we can expect from them. Powered by insights from big data, more natural user interfaces, and a merging of the physical and digital worlds, this new era of computing will enable exciting new capabilities.

Craig Mundie will discuss how we can harness these new technologies to take on some of the world’s most complex challenges.

**Thursday, October 6, 2011**

Bahen Centre

40 St. George Street

Adel S. Sedra Lecture Theatre, Room 1160

11:30 a.m.
