Web Services (SOA) Librarian (Computer Science New Grad Opportunity)

Work as a Web Services (SOA) Librarian in an IT Centre of Expertise (COE) at our Central office.

Learn more than you thought possible about web services and grow into the role of Registrar/Web Services Librarian by interfacing with all IT portfolios. Manage the service life cycle and the delivery of Service Oriented Architecture (SOA) services through the use of the Service Registry and Repository.

Shoppers Drug Mart is one of the most recognized and trusted names in Canadian retailing, with over 1,200 locally owned and operated stores nationally, and right now, we are transforming our business with IT investment in projects and systems – from architecture, application deployment and management, to implementation and production – and the people behind them.

Are you a Computer Science recent graduate who:

- Wants to become a trusted expert and guardian of critical data?
- Wants to be a central part of the IT function, supporting multiple stakeholders?
- Is interested in web services and service oriented architecture (SOA) and its potential?
- Has a high standard and attention to detail?
- Is looking to start your career with a nationally respected company?

If so, then an IT career in web services with one of the leading retail pharmacy destinations in Canada may be for you.

Duties:

- Act as the custodian of SOA Services and related metadata
- Creates, manages and maintains services repositories using a service registry
- Performs Service lifecycle governance using Service Registry and Repository
- Assists with the enforcement of organizational discipline, leveraging the capabilities of Service Registry and Repository
- Sets up and enforces policies, processes and Service Level Agreements (SLAs) related to services within the tool to enable automated enforcement
- Understands and adheres to existing SOA standards, processes, best practices and contributes to continuous improvements and enhancements of the same
- Participates in technical meetings related to Service Requirements, Design and Maintenance with architecture team, analysts and development and production support Vendors
- Maintains requirements, design and other relevant documentation on existing services
- Perform other duties as assigned.

Skills and Experience:
Required:

- Basic understanding of web services, concepts and development, and a willingness and interest to learn more
- Strong English communication skills, both oral and written
- Must have high integrity and accountability, willing to do what it takes to make the team successful
- Ability to manage priorities and timelines

Desired:

- Experience/exposure to WebSphere Registry and Repository (WSRR) based service management is a plus
- Responsible, conscientious, organized, self-motivated and able to work with limited supervision
- Detail oriented and possess strong problem-solving skills
- Experience in IT from a retail perspective a plus
- Understanding of SOA monitoring related to WSRR using ITCAM for SOA is a plus
- Experience/exposure WebSphere Message Broker, MQ, DataPower, WSRR) or Oracle SOA suite is plus

Why Shoppers?

Be part of an IT team that will have a significant impact on our company, and our customers from coast to coast. Be part of a caring organization that supports our community and provides Canadians with services in health, beauty and convenience across the country.

At Shoppers Drug Mart, we have always remained true to our belief that the root of our success lies with our people. We pride ourselves on providing more ways to care about our patients, customers and community.

We offer unique work, and the benefits you would expect from a large corporation, all with a smaller company feel, as well as:

- A high energy and varied workplace that strives for and rewards excellence.
- Competitive pay structures, rewarding strong and consistent performance
- A highly customizable benefits plan, including a vacation purchase option
- Peer recognition programs
- Employee discounts on in-store purchases
- Opportunities for skill development and advancement in your work
- Learning and development through our SDM University
- Strong culture of charitable and community involvement
- Unique chance to work with an organization that is committed to improving the health and well being of Canadians
